### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fariborz Moazzam on 01-03-2006.

The application has been amended as follows:

Claims 29-34,37-45 and 47 have been canceled.

In claim 53 (currently amended) line 10, --in—has been inserted after “opening”.

In claim 55(Previously presented) line 1, “an” has been changed to –said--.

In claim 58 (currently amended) line 4, “a strand of suture” has been deleted.

In claim 62 (currently amended line 6, --longitudinally—has been inserted after “slides”.

In claim 64 (Previously presented) line 1, “an” has been changed to –said--.

In claim 66 (Previously presented) line 1, the 1<sup>st</sup> “said” has been changed to –an--.

The above amendments were made to cancel non-elected claims and to correct indefiniteness or typographical errors, or to clarify the movement of the suture passing member relative to the grasping mechanism.

**Reasons For Allowance**

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest a device for passing suture through tissue including a tube having a lumen receiving a member having an opening receiving a strand of suture and two jaws or a grasping mechanism connected to the tube and having an opening through which the member with the suture can be longitudinally moved to pass the suture through the tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
